Spot Cooler

Portable Evaporative Spot Cooler

Product Description

This portable evaporative cooler is designed to provide cool fresh air into the work place using evaporation. The Patterson Spot Cooler will reduce the air temperature coming into the unit up to 20° Fahrenheit and the high powered blower will deliver this air up to 55+ feet/17+ meters. The unit comes with a garden hose attachment for easy filling.

Water from the bottom pan of the cooler is pumped to the top and allowed to flow down over the evaporative pads of the unit, evenly saturating the pads. A powerful blower pulls the air through the pads, forcing the water to evaporate. The Patterson Spot Cooler is portable and easy to roll with locking casters.

Base	31 ½" X 31 ½" High Density Polyethylene (HPDE)
Height	59" / 51.9 m-to top of nozzle
Water Capacity	24 gallons/91 liters
Weight	180 lbs/81.65 kg
Weight w/Water	380 lbs/172.36 kg

Blower

Horsepower	1 HP
Phase	Single
Voltage	115 Volts
RPM	1725
Full Load Current	10.8 amps
Safety Factor	1.15
Enclosure	ODP
Frame	56

Pump

Pump	210 GPH
Voltage	115 Volts
Phase	Single
Amps	1.1

Model: Patterson Spot Cooler

Mount	Portable
Color	White
Shipping Weight	180 lbs/81.65 kg
CFM	3,000
Air Throw	55+ feet/17+ meters
Coverage	1500 sq. ft. max
Warranty	1 year

Due to continual product improvement, items are subject to change without notice.
