

Bends up to #6 Grade 60 Rebar, only weights 134.5 lbs.

DIAMOND®

DBD-20X Table-Top #6 Rebar Bender

"Optional skid unit with portable rebar cutter pictured above"

This heavy-duty portable rebar bender helps to save valuable man-hours by bending rebar up to #6 (3/4") Grade 60 at the job site or in your shop. This strong electrical-mechanical bender has two presets angle locks for repeating the same angle bend. The dial-type angle selector can be set to accurately bend any angle from 0-180 degrees. Bends (3) each #3 rebar or (2) each #4/5 rebar and (1) each #6 rebar at one time. The roller chart makes it easy to select the correct combination of rollers to achieve a bending radius a minimum of five times the rebar diameter. An emergency stop switch and two side lifting handles are standard features. The DBD-20X portable rebar bender comes complete with set of (6) bending rollers in a steel carrying case, a tool kit, and a standard foot pedal control switch for hands-free bending. **Benner-Nawman** backs it with a one-year parts and labor warranty.

Specifications for DBD-20X Heavy-Duty Table-Top Rebar Bender	
Maximum rebar bending diameter	#6 (3/4") (19mm) Grade 60
Bending angle	0 – 180 degrees
Bending Speed	7 Seconds for 180 degree bend
Power Supply	115V 50/60Hz -15 amps
Weight (kg)	134.5 lbs. (61 kg)
Dimensions (mm)	16.4" (420) L x 18" (462) W x 16.2" (415) H
