**NEW STANDARD MOLDING KNIVES**

W&H supplies just about any molding knives you need. We ship most off-the-shelf knives within 48hours—faster, if you're in a jam. The standard patterns shown in our style sheet are the most often used—and they're normally in stock. Need special knives? Just send us an accurate tracing or a sample of the molding you wish to duplicate—we'll grind the knives for you! The workmanship will be superb, with quick delivery.

All knives are made from the *finest quality High Speed Steel* for long run production requirements.

If molding requires knives for top and bottom cuts, please specify by ordering: 1 set each top and bottom.
