

5-Gallon Pail-Lifter

The Pail-Lifter is as easy to use as any two-wheel hand truck, but offers even greater convenience. Designed to handle 5-gallon pails of paint and other construction materials, it features a unique lifting yoke that securely supports pails during transport. Thumb operated lift controls are placed on the handle for easy access. Pails can be raised to an under clearance height of 35". By eliminating manual lifting, the risk of injury/repetitive stress disorders is significantly reduced.

KEY FEATURES:

- Operates in narrow aisles - congested areas
- Picks pails from floor or pallets
- Integrated pail retainer
- Can be used to load tinters, shakers, or vehicles
- Moves easily on any surface indoors or out
- Portable / lightweight - fits easily in any van or truck
- Unit is free-standing even when loaded and raised
