

# **OWNER'S MANUAL** "J" Series Pallet Trucks

JET EQUIPMENT & TOOLS, INC. A WMH Company www.jettools.com P.O. BOX 1349 Auburn, WA 98071-1349 e-mail jet@jettools.com Phone: 253-351-6000 Fax: 1-800-274-6840 M-140080 1/02 This manual has been prepared for the owner and operators of a JET "J" Series Pallet Truck. Its purpose, aside from tool operation, is to promote safety through the use of accepted correct operating and maintenance procedures. Completely read the safety and maintenance instructions before operating or servicing the tool. To obtain maximum life and efficiency from your pallet truck, and to aid in using the tool safely, read this manual thoroughly and follow instructions carefully.

#### Warranty & Service

The JET Group warrants every product it sells. If one of our tools needs service or repair, one of our Authorized Repair Stations located throughout the United States can give you quick service.

In most cases, any one of these JET Group Repair Stations can authorize warranty repair, assist you in obtaining parts, or perform routine maintenance and major repair on your JET, Performax or Powermatic tools.

For the name of an Authorized Repair Station in your area, please call 1-800-274-6848, or visit www.jettools.com.

#### More Information

Remember, the JET Group is consistently adding new products to the line. For complete, up-to-date product information, check with your local JET Group distributor, or visit www.jettools.com.

#### JET Group Warranty

The JET Group (including Performax and Powermatic brands) makes every effort to assure that its products meet high quality and durability standards and warrants to the original retail consumer/purchaser of our products that each product be free from defects in materials and workmanship as follow: 2 YEAR LIMITED WARRANTY ON "J" SERIES PALLET TRUCKS. This warranty does not apply to defects due directly or indirectly to misuse, abuse, negligence or accidents, normal wear-and-tear, repair or alterations outside our facilities, or to a lack of maintenance.

THE JET GROUP LIMITS ALL IMPLIED WARRANTIES TO THE PERIOD SPECIFIED ABOVE, FROM THE DATE THE PRODUCT WAS PURCHASED AT RETAIL. EXCEPT AS STATED HEREIN, ANY IMPLIED WARRANTIES OR MERCHANTIBILITY AND FITNESS ARE EXCLUDED. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG THE IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. THE JET GROUP SHALL IN NO EVENT BE LIABLE FOR DEATH, INJURIES TO PERSONS OR PROPERTY, OR FOR INCIDENTAL, CONTINGENT, SPECIAL, OR CONSEQUENTIAL DAMAGES ARISING FROM THE USE OF OUR PRODUCTS. SOME STATES DO NOT ALLOW THE EXLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

To take advantage of this warranty, the product or part must be returned for examination, postage prepaid, to an Authorized Repair Station designated by our office. Proof of purchase date and an explanation of the complaint must accompany the merchandise. If our inspection discloses a defect, we will either repair or replace the product, or refund the purchase price if we cannot readily and quickly provide a repair or replacement, if you are willing to accept a refund. We will return repaired product or replacement at JET'S expense, but if it is determined there is no defect, or that the defect resulted from causes not within the scope of JET'S warranty, then the user must bear the cost of storing and returning the product. This warranty gives you specific legal rights; you may also have other rights which vary from state to state.

The JET Group sells through distributors only. Members of the JET Group reserve the right to effect at any time, without prior notice, those alterations to parts, fittings, and accessory equipment which they may deem necessary for any reason whatsoever.

### A WARNING

- Read and understand the entire owner's manual before using the pallet truck.
- Do not place hands or feet under the pallet truck at any time.
- Do not operate a loaded pallet truck on ramps, or inclines.
- Do not tip load pallet truck forks. This may cause damage to the forks and personal injury if the rear
  of the pallet truck suddenly "pops up".
- Never leave a loaded pallet truck unattended in the raised position. Always lower load to the floor.
- Do not load pallet truck beyond its rated capacity 5,000 lbs.
- Secure load before transporting.
- To prevent accidental tipping, make sure load is centered on the forks.
- Do not move a loaded pallet truck by other than manual force.
- Failure to comply with these warnings may result in personal injury and/or property damage.

#### Introduction

Congratulations on your purchase of a JET Pallet Truck.

To better understand the proper use and safe operation of this pallet truck, please take a few minutes to carefully read and follow the instructions contained in this manual. When finished reading and understanding the manual, please file in a safe and convenient location for the life of the pallet truck.

This pallet truck is designed to push and pull palletized material loads up to 5,000 pounds only.

You will notice several important features about your JET Pallet Truck. One, its 2-1/2" lowered height and tapered fork tips allow easy entry into pallets. The PT-3348J four-way pallet truck features a 2" lowered height.

The heavy-gauge steel frame is reinforced with cross-welded steel plates to prevent forks from bending and solid steel push rods are used for added strength. The pump features top-of-the-stroke and overload by-pass valve systems. A durable powder coat finish provides long lasting steel protection.

Extra wide polyurethane covered steel steer wheels and nylon load wheels feature lifetime lubricated, double sealed bearings to provide smooth, quiet rolling and added stability.

Your JET Pallet Truck is truly one of the finest pallet trucks in the world.

The specifications in this manual are given as general information and are not binding. JET Equipment & Tools reserves the right to effect, at any time and without prior notice, changes or alterations to parts, fittings, and accessory equipment deemed necessary for any reason whatsoever.

#### Assembly

**Note:** Individual trucks are assembled and ready to use. Pallet trucks purchased in crate quantities (6 units to a crate) require some assembly. Match the "number" label on the handle to the "number" label on the frame, prior to assembly.

Tools Needed for Assembly

Hammer

- Flat Head Screwdriver
- Pliers or 17mm Wrench
- Insert the base of the handle (A, Fig. 1) into the pump bracket (B, Fig. 1).
- 2. Align the holes (C, Fig. 1) at the base of the handle with the holes in the pump bracket.
- 3. Using a screwdriver, pry the cam (D, Fig. 1) up and slip the bolt head, under the notch in the cam. **Do not adjust the nut.**

Fig. 1

 Insert handle pins (E, Fig. 2) into the holes of the pump bracket and handle. Align the spring pin holes (F, Fig. 2) in the handle pin and the pump bracket.

5. Tap the handle pins into place with a hammer.

- Using a hammer, tap the spring pins (A, Fig. 3) into the pump bracket and handle pins.
   Note: If the holes aren't lined up use a 17mm wrench or pliers to turn the handle pin until the spring pin holes line up.
- 7. Repeat for the opposite side handle pin.
- Pull the handle down and remove the retaining bracket (B, Fig. 3) by pulling straight out. Discard retaining bracket.

**Note:** If the pallet truck does not raise, or lower properly you may have air bubbles in the pump from shipping. Refer to "Bleed the Pump" on page 7.

Fig. 3

#### **Pallet Truck Operation**

To raise the forks, place handle in the UP position (bottom part of the handle slot), see Fig. 4.

To lower forks, pull lever handle to DOWN position (upper part of the slot).

To freely move the handle, set the lever in Neutral (center notch of slot).

#### To Lift a Load

- 1. Lower forks to lowest position, Figure 4.
- 2. Insert forks under load, or into pallet.
- 3. Place lever in UP position (bottom part of slot), Figure 4.
- 4. Move handle up, and down until forks reach desired height.

#### To Move a Load

- Place lever in NEUTRAL position (center notch of slot), Figure 4.
- 2. Pull or push pallet truck to desired location.

Fig. 4

#### To Lower a Load

- 1. Pull lever to the DOWN position (upper part of slot), Figure 5.
- 2. Pull forks away from load.

#### **Up-Down Cam Adjustment**

- 1. Set the lever in the NEUTRAL position, Figure 5.
- 2. Turn the cam nut while pumping the handle, Figure 6.
- 3. When lifting stops, give the nut one more turn.
- The cam nut is properly adjusted when pumping the handle in the NEUTRAL position causes no movement of the hydraulic ram.

## Cleaning the Release Valve (Bleed the Pump)

Over time, the hydraulic pump assembly may become clogged with debris, air bubbles, and not function properly.

To clean the release valve and bleed the pump:

- Pump handle quickly, raising pallet truck to full extent. While continuing pumping action, pull lever to down position.
- 2. When forks reach total down position, valve is flushed. Repeat if necessary.

#### Lubrication

Check the oil level annually by removing the oil plug found on the top of the pump housing. When changing or adding oil, fill the tank through the oil plug screw hole to 80% capacity with hydraulic jack oil, about 2" deep in pump housing, see Figure 7. **Do not** use any other type of oil.

There is one grease fitting (#55B in the breakdown) located on the table. Lubricate this point on a semi-annual basis.

Wheel bearings are sealed and require no lubrication. Crank Shaft features oil light bushings that also require no lubrication.

Lightly oil all moving parts.

Fig. 7

#### Seal and O-Ring Replacement for Piston and Plunger Piston

- 1. Raise the pallet truck by pumping handle.
- Remove the bolts #70. This will free the pump and handle assembly from the pallet truck.
- Empty the oil into a suitable container. Pump handle until all oil has drained. Dispose of used hydraulic oil, or fluid according to local disposal regulations.
- 4. Pull out piston plunger #33, and/or ram piston #25.
- 5. Remove all o-rings and seals, see Figure 8.
- Insert new o-ring or seal one at a time making sure to replace with the same size that was removed.
- Reassemble and fill the oil tank through the oil plug screw hole to 80% capacity with new hydraulic jack oil, about 2" deep in pump housing, see Figure 7.

Fig. 8

## Troubleshooting

| Condition                               | Probable Causes  | Corrective Action  |  |  |
|---|--|--|--|--|
| Hydraulic unit does not lift.           | <ol> <li>Oil low in tank.</li> <li>Air in pump.</li> <li>Worn O-ring in ram cylinder.</li> </ol>     | <ol> <li>Make sure there is no oil<br/>leakage from Release Plug<br/>#36 or Pressure Adjustment<br/>Screw #27, and add oil.</li> <li>Place the lever in the down<br/>position and pump the<br/>handle repeatedly.</li> <li>Consult authorized repair<br/>station.</li> </ol> |  |  |
|   |  | <ol> <li>See "Cleaning the Release<br/>Valve" page 7.</li> </ol>   |  |  |
|   | <ol> <li>Steel ball not seated in<br/>hydraulic unit.</li> </ol>                                     | 2. Consult authorized repair station.  |  |  |
|   | 2. Worn O-ring in ram cylinder.  | <ol> <li>See "Cleaning the Release<br/>Valve" page 7.</li> </ol>   |  |  |
| Once lifted, truck lowers by itself     | <ol> <li>Release valve not seated properly.</li> <li>Release valve not adjusted properly.</li> </ol> | <ol> <li>Reload truck within load<br/>capacity, and adjust valve<br/>by Pressure Adjustment<br/>Screw #27.</li> </ol>  |  |  |
|   | 5. Oil leakage from Release<br>Plug #36 or Pressure<br>Adjustment Screw #27.                         | <ol> <li>Tighten Release Plug #36.<br/>Replace O-rings on Release<br/>Plug #36 and/or Pressure<br/>Adjustment Screw #27.<br/>Consult authorized repair<br/>station.</li> </ol>   |  |  |
|   | 1. Cam #53 broken.   | 1. Replace cam #53.  |  |  |
| Fork does not lower.                    | <ol> <li>Up-down cam nut #15 out of<br/>adjustment.</li> </ol>                                       | <ol> <li>Refer to "Adjusting Up-Down<br/>Cam" page 7.</li> </ol>   |  |  |
|   | 3. Broken fork rods and linkage.   | <ol> <li>Consult authorized repair<br/>station, or replace broken<br/>parts.</li> </ol>  |  |  |
| Lever does not set at NEUTRAL position. | <ol> <li>Up-down cam nut out of<br/>adjustment.</li> </ol>   | <ol> <li>Refer to "Adjusting Up-<br/>Down Cam" page 7.</li> </ol>  |  |  |
