

## ET ELECTRIC TROLLEYS

**JET ET Series Electric Trolleys come in a wide array of capacities, each adding convenience and versatility to your overhead lifting application. ET Series Trolleys are available in 115/230V single phase or 230/460V three phase motor offerings. The trolleys are adjustable to fit various size I-beams and wide flange beams and can be mounted using lugs or hook pins.**

**ET Series Electric Trolleys are quipped with the same quick-connect cords as the JET SS and DS Electric Hoists allowing for fast set-up and installation by eliminating the need for rewiring.**

### ET ELECTRIC TROLLEYS
