

Three Leg Safety Jack

PART NUMBER 3600

Pipe and Industrial Tools

B&B Safety Jacks are available in three and four legs with a wider and safer stance offering increased stability. All Safety Jacks offer a large 16 inch V-Head with reinforced V-Gussets for added strength, increasing the weight capacity to 5,000 lbs! Height adjustment is 1 ¾ solid acme thread and the elimination of the adjustment washer, inside tube and T-Handle simplify use and reduce instances of potential operator error.

PN3600
