

Multi-Roll

PART NUMBER 4375

Pipe and Industrial Tools

B&B introduces the new Multi-Roll Pipe Roller. The new and improved Multi-Roll can raise and lower pipe to fit up under load and accommodate up to 36" pipe with no width adjustment necessary, thereby saving time and increasing safety. Available with Steel, Rubber and Stainless Wheels. All wheels lock, restricting pipe rotation.

Specifications

- Offers additional functions as compared to the fixed height model.
- Allows pipe raising and lowering under load.
- 3,000 lbs. weight capacity (with steel wheels).
- Pipe capacity is 2" - 36".
- Pipe Brake System allows wheels on both sides of the jack to lock, restricting pipe rotation.
- Durable acme thread height adjustment.
- Extra wide wheels reduce pipe travel.
- Shipping weight 62 lbs.

Weight Capacities

PN 4375 Steel Wheel Capacity = 3,000 lbs.

PN 4380 Rubber Wheel Capacity = 1,000 lbs.

PN 4390 Stainless Steel Wheel Capacity = 3,000 lbs.

PN	Shipping Weight	Adjustment Height	Footprint
4375	62 lbs.	29" - 42" (top of inside wheels)	24" x 30"
