

Keg-Lifter

Powered Lift Transporter

The ultimate tool for keg transporting, lifting and loading. Compact size, unmatched maneuverability, ease-of-use and **powered lift mechanism** make the Keg Lifter perfect for use in:

- Pubs and Restaurants
- Micro Breweries
- Beer Distribution Centers
- Liquor Stores
- Wholesale Clubs
- Function Halls and Catering Facilities
- Arenas and Stadiums

How it Works:

Simply wheel the Keg Lifter up to a keg until its sturdy lifting bracket positively engages the keg's top handle. The bracket design ensures the keg is held firmly and securely in place while lifting, lowering and transporting.

The Keg Lifter can be moved in two ways: for longer distances it tilts back like a conventional two-wheel hand truck; or in confined and congested spaces it can be maneuvered with all four wheels on the ground. The unit is freestanding even when loaded and lifted. Kegs are raised or lowered quickly by simply engaging the rocker style lift control which is conveniently mounted to the drive/steer handle for easy access.

Works with a wide variety of keg sizes and styles. Use it to stack or unstack kegs from one another; load shelves in store rooms, coolers or tap rooms; or load customer vehicles.

The Keg Lifter's battery provides ample power for a full shift and recharges quickly with the 110V charger included with each unit.

Specifications:

Load Capacity	175 lbs. (80 kg) / 1 Keg*
Load Type	1 Keg (1/2 & 1/4 Barrel, 50L)
Max. Lift Shuttle Travel	37.4 in / 950 mm
Under Keg Clearance	35 in / 889 mm
Cycle Time - Lift up	10 Seconds (No Load)
Weight	77 lbs. / 35 kg
Battery	2 x 12 VDC, 7.2 Ah, non-spillable
Charger	Input 120 VAC: Output 24 VDC, 2A
IP Class	IP41

*Half Barrel or Smaller

Keg-Lifter

Ergonomic handle with easy access lift and lowering controls

Lifting bracket holds kegs securely in place during transport and lifting

Small and highly maneuverable, it even works in cramped walk-ins

Works with a wide variety of keg sizes and styles
