

nova™ Midi Lathe **comet II**

The most versatile lathe you will ever own

It's portable, space saving – yet delivers the capacity and rugged stability of larger lathes. And YES, with proven NOVA™ quality, durability and features.

NOVA's unique Versaturn™ Adaptable Technology with available accessory attachments, transforms the NOVA™ Comet II Midi Lathe into an all-in-one wood turning and woodworking system. The NOVA™ Comet II Midi, perfect solutions for a wide- range of woodworking projects.

Need more capacity? The NOVA™ Comet II Midi Lathe's add-on bed extension allows you to stretch your NOVA™ Comet II Midi to meet your project needs.

Features and benefits

Small, space-saving design means the **NOVA™ Comet II Midi** is a great choice for a multitude of projects. The **NOVA™ Comet II Midi** is at-home as the primary or secondary lathe in a multi-functional workshop. In addition, it's great for those who travel a lot for their hobby or who teach/demonstrate frequently.

- **Powerful Electronic Variable-Speed motor offers an RPM range from 250-4000 RPM.**

With a super- low speed up to a super-high speed makes the **NOVA™ Comet II Midi** Lathe the perfect choice for a variety of projects, from pens to bowls.

- **Forward and Reversing Switch** offers additional flexibility and allows you to achieve a superior finish.
- **12" Swing Capacity**
- **Capacities of 12" swing over bed and 16.5" between centers, expandable to 42" with an available bed extension accessory.**
- **3-Step Pulley System** offers different speed ranges while providing maximum flexibility. The middle step usually provides enough range for most wood turning applications. However, the additional two steps provide more torque for the more demanding applications.

Comet II Versaturn™ Accessories

NOVA Versaturn™ Adaptable Coupler

It's adaptability gives you so much more!

47000

- **NOVA Versaturn™ Adaptable Technology** exclusive to **NOVA™**. **NOVA™ Comet II Midi** is not only a lathe, it can also be "adapted" into a:

- 8" Wet Stone
